MOHAMMAD SAIFAN

Bengaluru, Karnataka, India • **System-Builder | Full-Stack Developer | Hardware Prototyper**

TECHNICAL ARSENAL

- **Frontend Core:** React, TypeScript, Vite, Next.js, Tailwind CSS
- **Backend & Data:** Node.js, Python, Convex
- **Hardware & Systems:** Arduino, ESP32, Raspberry Pi
- **Infrastructure & Tooling:** Git, GitHub, Vercel, Netlify, VS Code, Cursor
- **Theoretical Domains:** Game Theory, Computational Cognitive Neuroscience

ENGINEERING & RESEARCH

Stimulus
Mar 2026 – Aug 2026

Architected a computational research framework leveraging Meta's TRIBE v2 model to simulate voxel-level neural activity in response to media and user interface stimuli.

CarStack
Mar 2026 – Aug 2026

Designed system architecture and deployed a comprehensive digital platform for pre-owned automobile listings and valuations.

Commercial Web Infrastructure
Jan 2026 – Jun 2026

Engineered and deployed custom e-commerce and commercial platforms for local businesses, including a full-stack digital tiffin service setup, Zuzu Minis, MBSYS, and Hunar.

Bharat Business Intelligence Engine (BBIE)
May 2026

Developed a scalable analytics engine for business data, earning a Special Mention at the AI for Bharat national hackathon.

AirGuard
Feb 2026 – Mar 2026

Co-engineered an autonomous airspace defense system and tactical drone mission planner. Secured 2nd Place at TechnoFest 2026.

Strategos
Mar 2026

Built an interactive game theory and strategic simulation web application to model competitive decision-making.

LEADERSHIP & STRATEGY

Quantitative Analysis
Ongoing

Active preparation for AMC 10 Olympiad and ACUMO Finathon 2026.

EDUCATION

Orchids The International School, Majestic
Grade 9
